HBR DOUBLE HUNG

MULLING RESTRICTIONS

Picture / Flanker Restrictions

1. The following table shows all widths and heights available for operating Legend HBR double hung impact windows. The value in the matrix is the maximum glass width of picture unit that can be used in a picture/flanker window configuration. For example, if you require 2424 flankers, the widest picture unit you can use is a 32" glass width double hung picture window.
